SUMMARY

Computer Science undergraduate specializing in Data Science with internship experience building automation tools, reporting systems, and API integrations. Developed and deployed multiple full-stack and analytics applications, including a student resource platform used by 1,000+ students and machine-learning-powered dashboards. Interested in software engineering, full-stack development, and data-focused roles.

EDUCATION

- Multimedia University** Cyberjaya, Malaysia
Bachelor of Computer Science (Honours) (CGPA: 3.48/4.00) Oct. 2023 - Expected Jul. 2026

EXPERIENCE

- Presoft (M) Sdn. Bhd.** Puchong, Malaysia
Software Development Intern — Business Systems & Automation Jul 2025 — Oct. 2025
 - Business Systems Automation:** Developed Python-based automation systems that generated operational reports from SQL Server data, reducing manual reporting effort.
 - Payments & CRM Integrations:** Evaluated and tested payment gateway integrations using Stripe and Billplz APIs, and developed supporting utilities for CRM reporting workflows through the Zoho Bigin API.
 - Reporting & Analytics:** Created operational dashboards and reporting workflows using SQL Server, Power BI, and Python to support business monitoring and decision-making.

PROGRAMMING SKILLS

- Languages:** Python, JavaScript, TypeScript, SQL, Java, C++, R, C#
- Web Development:** HTML, CSS, Tailwind CSS, React, Next.js, Node.js, Express
- Databases & Platforms:** PostgreSQL, Supabase, Firebase
- Tools:** Git, Docker, Power BI, Railway, Render, Vercel, Netlify, Figma
- Concepts:** REST APIs, Automation/Scripting, OOP, SQL Scripting, Responsive Design, CI/CD Fundamentals
- Languages (Human):** English, Malay, Mandarin, Cantonese

FEATURED PROJECTS

- Study with Junn** : Developed an educational platform providing study materials for 1,000+ MMU students across foundation and selected degree subjects. - *HTML, CSS, JavaScript*
- Student Wellbeing Assessment Platform (FYP)** : Built a full-stack wellbeing assessment platform using PHQ-9 and GAD-7 questionnaires with 12 machine learning models, SHAP explainability, analytics dashboards, and Dockerised deployment. - *Python, Streamlit, Scikit-learn, SHAP, Supabase, PostgreSQL, Docker*
- Discord Utility Bot** : Developed and deployed a modular Discord bot featuring analytics, reminders, scraping utilities, Supabase integration, and automation workflows, with runtime configuration, logging, and health monitoring support. - *Python, discord.py, PostgreSQL, Supabase, Railway*
- Maintenance Quote Status Report Generator:** Developed a reporting platform that transformed SQL Server operational data into interactive HTML, Excel, and Power BI reports. Built dynamic filtering and summarization pipelines with Pandas, created a GUI for report generation, and enabled real-time KPI monitoring through Power BI DirectQuery integration. - *Python, SQL Server, Pandas, Jinja2, Tkinter, Power BI*

CO-CURRICULAR ACTIVITIES / LEADERSHIP EXPERIENCES

- Hackerspace MMU** Cyberjaya, Malaysia
Member Aug. 2024 - Present
- CodeNction 2024** Cyberjaya, Malaysia
Participant — Top 10 out of 57 teams Nov. 2024
- IT Society MMU Cyberjaya** Cyberjaya, Malaysia
Technical Division Member Jan. 2025 - Dec. 2025
 - MMU Clubs Site:** Contributed to backend-related development and technical workflows using React.js, Supabase, and Express.js.
 - CodeNction 2025:** Contributed to the event website development and supported technical operations during the event.
- Game Development Club MMU Cyberjaya** Cyberjaya, Malaysia
Event Management Member Jan. 2025 - Present
