SUMMARY

Computer Science graduate specialising in Data Science with hands-on experience developing automation systems, backend services, analytics platforms, and full-stack applications. Built software used by 1,000+ students and delivered production-oriented solutions involving Python, SQL, APIs, databases, and cloud deployment. Seeking graduate software engineering, backend, or full-stack development opportunities.

EDUCATION

- Multimedia University** Cyberjaya, Malaysia
Bachelor of Computer Science (Honours) (CGPA: 3.50/4.00) Oct. 2023 - Aug. 2026

EXPERIENCE

- Presoft (M) Sdn. Bhd.** Puchong, Malaysia
Software Development Intern — Business Systems & Automation Jul 2025 — Oct. 2025
 - Business Systems Automation:** Developed Python-based automation systems that generated operational reports from SQL Server data, replacing repetitive manual reporting workflows.
 - Payments & CRM Integrations:** Evaluated and tested payment gateway integrations using Stripe and Billplz APIs, and developed supporting utilities for CRM reporting workflows through the Zoho Bigin API.
 - Reporting & Analytics:** Created operational dashboards and reporting workflows using SQL Server, Power BI, and Python to support business monitoring and decision-making.

PROGRAMMING SKILLS

- Languages:** Python, TypeScript, JavaScript, SQL, C#, Java, C++, R
- Web Development:** React, Next.js, Node.js, Express, HTML, CSS, Tailwind CSS
- Databases:** PostgreSQL, MySQL, SQL Server, Supabase, Firebase
- Tools & Platforms:** Git, Docker, Power BI, Streamlit, Railway, Render, Vercel, Netlify
- Concepts:** REST APIs, Automation/Scripting, OOP, SQL, Data Processing, Responsive Design
- Languages (Human):** English, Malay, Mandarin, Cantonese

SELECTED PROJECTS

- Study with Junn** [↗](#) : Built and maintained an educational resource platform reaching 1,000+ MMU students, with searchable course notes and exam resources optimized for mobile access. - *HTML, CSS, JavaScript*
- Student Wellbeing Assessment Platform (FYP)** [↗](#) : Developed an end-to-end machine learning application using an ensemble of 12 classification models, SHAP explainability, Supabase-backed analytics, and interactive Streamlit dashboards for assessment and reporting. - *Python, Streamlit, Scikit-learn, SHAP, Supabase, PostgreSQL, Docker*
- Discord Utility Bot** [↗](#) : Developed a modular Discord bot with configurable features, reminders, GitHub tracking, scraping utilities, and Supabase-backed persistence. Optimized runtime memory usage to approximately 80 MB, enabling reliable deployment on low-resource hosting environments. - *Python, discord.py, PostgreSQL, Supabase, Railway*
- E-commerce Analytics Dashboard** [↗](#) : Developed and deployed an interactive analytics platform for the Olist e-commerce dataset with executive KPIs, revenue analysis, customer segmentation, logistics risk assessment, and machine learning prediction modules. - *Python, Streamlit, Plotly, Pandas, Scikit-learn*

CO-CURRICULAR ACTIVITIES / LEADERSHIP EXPERIENCES

- IT Society MMU Cyberjaya** [↗](#) Cyberjaya, Malaysia
Technical Division Member Jan. 2025 - Dec. 2025
 - MMU Clubs Site:** Contributed to backend development and technical workflows for the MMU Clubs platform using React.js, Express.js, and Supabase, including administrative functionality and database integration.
 - CodeNction 2025:** Contributed to the CodeNction 2025 event website and supported live technical operations, including presentation systems and venue technology.
- Hackerspace MMU** [↗](#) Cyberjaya, Malaysia
Member Aug. 2024 - Present
- CodeNction 2024** [↗](#) Cyberjaya, Malaysia
Competitive Programming Participant — 10th / 57 Teams Nov. 2024
- Game Development Club MMU Cyberjaya** [↗](#) Cyberjaya, Malaysia
Event Management Member Jan. 2025 - Present
